NUMBER 18

Judicial Ticket.

For Chief Justice of the Supreme Court—**ORSAMUS COLE.**

For Associate Justice of the Supreme Court—**JOHN B. CASSIDAY.**

For County Judge—**AMOS P. FRICHARD.**

President Garfield still holds the fort against the attacks of Conkling, but how long he will hold it is a question.

County treasurers will hereafter be regarded as ineligible to a second term. The Legislature believes in rotation in office—outside of the Legislature.

Those who have been hanging about saloons and being treated every half hour, are becoming discouraged. Inventions are getting few and far between.

Certain cabinet officers threaten to resign if the President insists upon making certain appointments. All such should resign immediately, and not feel that the country cannot get along without their services.

No church in Washington attended by any President, is as plain, small, and unpretending, as the one at which President Garfield and family worship. It is less imposing than any church in Janesville, but then, it is as good for true worship as the best.

The Chicago Journal thinks the anti-treating bill, which prohibits one person drinking at the expense of another, is a funny kind of legislation, and, like all laws of that kind, will have a dead-letter effect. The Journal should understand that the Wisconsin Legislature can do a good many funny things with apparent earnestness.

Secretary Windom has already shown his strength as a financier, and has astonished some of the wisest financial men in the country. Upon his advice the extra session of Congress was not called. This will save the country thousands of dollars, and he can redeem over 200 millions of the six per cent bonds, all the same. Windom is solid in common sense and as physically solid.

There are mutterings in the political sky which overhangs Washington. If reports be true, there will be a general rupture in the cabinet, sure, no matter whether the appointments of President Garfield are confirmed or not. If they are confirmed some of the members will quit the cabinet, and if they are not confirmed others, will take it as a personal insult, and will retire. Of course these rumors are made to appear more serious than they really are; but still there is deep discontent in the factions at Washington, and probably President Garfield will be compelled to withdraw some of the appointments.

THE CENTER OF POPULATION.

They are engaged in the census office in working out the center of population, and the reckoning so far brings it south of the Ohio river, between Cincinnati and Covington. In 1790 it was 23 miles east of Baltimore. In 1800 it was 18 miles west of Baltimore, having moved westward 41 miles during the decade. In 1810 it was 40 miles northwest by west of Washington, moving westward 36 miles. In 1820 it was 16 miles north of Woodstock, Virginia, having moved 50 miles. In 1830, it was 19 miles west of Morefield, Maryland, moving westward 39 miles. In 1840 it was 15 miles south of Clarksburg, West Virginia, moving 55 miles. In 1850, it was 23 miles southeast of Parkersburg, West Virginia, again moving westward 55 miles. In 1860 it was 20 miles south of Chillicothe, Ohio, going westward 80 miles. In 1870 it was 48 miles east by north of Cincinnati, moving west 42 miles. Since 1790, the center of population was moved westward almost in a direct line, 430 miles.

THE JUDICIAL ELECTION.

Next Tuesday the judicial election will take place, when a Chief Justice and an Associate Justice of the Supreme Court will be elected. For these important and honored positions, the present Chief Justice Cole and Associate Justice Cassidy, are independent candidates. The ticket to be voted on that day will read as follows:

For Chief Justice Supreme Court for term ending January 24, 1882—**ORSAMUS COLE.**

For Chief Justice Supreme Court for full term—**ORSAMUS COLE.**

For Associate Justice Supreme Court for term ending January, 1880—**JOHN B. CASSIDAY.**

The county judicial ticket will be added to the above, and will be printed substantially in the following form:

For Justice Municipal Court for term commencing June, 1881—**J. M. F.**

For County Judge for term commencing January, 1882—**AMOS P. FRICHARD.**

For the honor of the State and a credit to the judiciary, there will be no other candidates in the field for positions on the Supreme Bench. By a call from the most prominent members of the legal profession throughout the State—eminent lawyers of both political parties appearing thereto—and from members of the Legislature regardless of party affiliations, Judges Cole and Cassidy were requested to become independent candidates. Their acceptance of the honor, and the pledge of hearty support from the bar and the people, will lift these two high judicial officers out of political strife, and on Tuesday next, Chief Justice Cole and Associate Justice Cassidy will be the unanimous choice of the people for places on the Supreme Bench. This is a credit to both parties.

and a handsome acknowledgment of the eminent fitness and true worth of the candidates.

THE CONKLING WAR.

Senator Conkling Determined to Oppose Robertson's Confirmation.

Robertson's Nomination Will Cause a Hot Fight in the United States Senate.

As Conkling Says he Will Not be a Party to Compromise with Half Breeds.

The Democrat Senators are Determined to Oppose the Confirmation of Chandler.

The President will not Withdraw Either Nomination Until Requested by the Parties Named.

Attorney-General Mac Veagh's Trouble About the Appointment of Chandler.

General Grant and Party Enroute for the City of Mexico.

The Doings in the Wisconsin Legislature.

Other Interesting State and Miscellaneous News Items.

FROM MADISON.

Special to the Gazette.

MADISON, March 30.—Assembly bills were indefinitely postponed to authorize the city of Milwaukee to issue bonds providing for a deaf mute school in Milwaukee.

The Senate passed to a third reading the bill to provide for a building for the historical society.

Assembly.

Rewey's bill increasing license fees, was defeated.

Lawrence offered the local option law as an amendment which was referred to a special committee.

The Assembly concurred in the Senate bills appropriating various sums to the Insane Hospitals; the Asylum at Delavan, and the Industrial School at Waukesha.

Bills were killed to organize the Insane Hospitals under district boards.

The bill authorizing the taking of lands for lighthouse purposes.

Requiring hens to be filed within six months.

Relating to attachments, were passed under supervisors rules.

The bill making military students of the university members of the Wisconsin National Guard, and relating to registry elections, were indefinitely postponed.

MADISON, March 29.—Both Houses held evening sessions. In the Assembly a petition was presented from Kate Kane, the celebrated Milwaukee free-rights advocate, for the removal of political distinction between men and women.

The Yorktown celebration bill was concurred in.

The bill creating a paid board of control for charitable and penal institutions of the State was slightly amended and passed under a suspension of the rules. The bill provides for the abolishment of all local boards, appoints five commissioners at a salary of \$2,000 each, a secretary to the board, a steward at each hospital, and surgeon, each to receive \$2,500, with necessary officers at the other institutions. The bill passed, 28 to 1, Senator Hamilton voting nay. "This is a great triumph for Senator Sutherland, who was Chairman of the investigating committee that investigated the affairs of the hospital last summer, and who is the father of the bill. Great praise is also due Senators Paul, of Milwaukee, and Richardson, of Janesville, and Thomas, of Prairie du Chien, who aided materially in drawing up and perfecting the bill. The bill will be engrossed and pass the Assembly to-morrow.

The committee on appointment reported a bill restricting the State into Senate and Assembly districts. It does not materially differ from the apportionment already published. It is likely to receive serious objection, as it does not coincide with the views some members of the Legislature.

NEW YORK COLLECTORSHIP

Senator Conkling's Attitude Regarding Robertson's Confirmation.

WASHINGTON, March 29.—There can be no further doubt entertained as to the course of Senator Conkling with reference to the nomination of Judge Robertson for collector of the port of New York. He will do all in his power to defeat his confirmation. He has been urged in the most forcible manner not to do so by Judge Robertson's friends, who have been here for some days, but he has refused to be a party to the compromise with the "half-breeds," and a hot fight in the Senate may be anticipated. What the President says. A Republican who was at the White to-day says the President will not withdraw either Robertson or Chandler, except at the personal request of one of these gentlemen. The Democratic Senators are determined to oppose Mr. Chandler's confirmation.

MAC VEAGH.

He Threatens to Resign from the Cabinet on Account of Chandler's Appointment.

WASHINGTON, March 29.—It seems, from the best source of information, that the true status of the case in regard to the threatened resignation of the Attorney General is about as follows: When the President intimated that he would like to appoint Wm. E. Chandler to the position of solicitor general, Mr. Mac Veagh said he hoped the President would reconsider the intention, because if he persisted in making the nomination he must resign his position. When the nomination went in Mr. Mac Veagh reminded the President of what he had told him, remarking that he supposed from the fact that he had made the nomination that his resignation would be acceptable. It is not announced what the President replied to this except to give ground for the inference that he should under no circumstances withdraw the nomination. Mr. Mac Veagh said to a friend Sunday night that he should carry his opposition to Chandler to the Senate where he hoped to defeat his confirmation, and his retirement from the cabinet would be contingent on what was done there in the matter. He said to a correspondent to-day that he did not intend now to resign it. It seems that the Attorney General talks in a little different vein when restrained by the knowledge that what he says is to be printed, or that he has somewhat repented a threat that may have been made in haste, and a little qualified in its terms.

GRANT AND PARTY.

INDIANAPOLIS, March 29.—General Grant and party reached the city this afternoon at 3 o'clock by the Pan-Handle road on his way to Texas, and left immediately by the Vandavia for St. Louis. The party consisted of General and Mrs. Grant, Jesse Grant and wife, the Mexican Minister at Washington, Senator Romero, and his mother-in-law, Mr. Dawson, the General's private secretary, and three servants. Nobody met them at the depot. None of them showed themselves in the depot. They will continue the journey to Galveston by special car, and then sail for Vera Cruz. They will remain in Mexico until June 1.

THE FASTING WOMAN.

DOW CITY, March 29.—Miss Hattie Deuell was living at 9 o'clock this evening, the close of her thirty-fourth day of her voluntary starvation. Last evening she wrote on her slate, "Do not ever use any more water." The attendants disregarded this, and she drank the water presented her, though in small quantities. She slept quietly about six hours. When not asleep, she lay still with closed eyes. This morning she was so weak as to be unable to sit up in bed. During the forenoon she rallied, and gained sufficient strength to sit up for a short time. By signs she signified that she had a slight pain in the breast and stomach. About the middle of the afternoon she suddenly sank rapidly for a few minutes, and the family were hastily gathered to her side in the belief that she was dying. She gradually recovered in a short time, and at 7 o'clock was reported the same as usual.

FORGETTING TO MARRY.

WAUPACA, Wis., March 29.—A nice little marriage occurred last night, the particulars of which are not altogether without interest. Night before last Jim McCloy and Annie Christy were to have been united in holy wedlock; the arrangements were all complete—viz., the justice spoken to, the whisky and beer purchased, the victuals cooked, and the guests invited. The eventful evening arrived, and so did the guests. A gay time ensued, and the eatables and drinkables were soon out of sight. The latter had a demoralizing effect, and the whole crowd were so gloriously happy that the ceremony was forgotten, and not until the justice and friends returned to their homes the next morning was the fact discovered. But not to be daunted fresh arrangements were made, and last night the marriage was consummated, all hands decided that the ceremony should come first and the jollification afterward.

SUICIDAL.

MILWAUKEE, March 29.—Mrs. Maria Bumer committed suicide by cutting her throat with a case-knife. She had escaped from the county insane asylum last week, and resumed her household duties.

ELGIN, Ill., March 29.—Henry Russell, a farmer living west of Batavia, committed suicide yesterday by hanging himself from a beam in the corn-crib. A note written before he committed the act told a story of financial and domestic embarrassment.

JAMES H. ROCKEFELLOW.

WHITEWATER, March 29.—James H. Rockefeller, a well known citizen, died to-day of neuralgia of the heart. He was found yesterday near his barn in an insensible condition, and did not recover consciousness thereafter. The funeral will be on Thursday afternoon, and will be conducted by the Ancient Order of United Workmen, of which he was a prominent member.

YOUNG FEMALE CONVICT.

CLINTON, Ill., March 29.—Martha Bonina, aged 16 years, the partner of Lizzie Barton, the female horse-thief, of this county, was sent to the Penitentiary this afternoon for one year, for arson in burning some buildings in Wapella. The jury was out twenty hours.

The Howe Scale Co., enlarged their works twice last year to meet the demand. BORDEN, SELLECK & Co., General Agents, Chicago, Ill.

SHOPIER.

The funeral services of Miss Anna Fonda were held in the Congregational church Sunday, March 27th, Rev. W. J. Wilson conducting the services. She was taken sick very suddenly about three weeks ago with brain fever, from which she recovered so far that great hopes were entertained that she would get well, but a relapse came and after much suffering she has gone to rest where pain and suffering are not known.

Rev. E. L. Dresser has gone to visit some friends in Cedar Rapids, Iowa.

E. D. Mosley was one of those unfortunate ones who was snowed in away from home. Milwaukee check, and a ticket on Foot and Walker's line, brought him home safely.

We expect F. N. Parker will put in a first class creamery soon. He put up his stock of ice just in time.

Wake up, you that want town offices, for the time is near at hand. We understand S. H. Slaymaker, who has filled the office of chairman of the board of supervisors, will positively decline to serve any longer. The only officer who is anxious about the next term is the path-master of the Shopier district.

Our school board have postponed the commencement of school until Vemors' big storm has passed.

Fred Humphrey, Jr., has sold his house and lot to S. F. Buck and purchased H. S. Parker's farm.

A whole week without mail is something we hope won't happen again in our day.

Fred thought he would hit the snow-plow with a snow ball, when it went by. The snow plow retaliated by hitting Fred on the nose with a chunk of coal. Result—Fred retires with a bloody nose, and the snow plow keeps on about it's business.

Wm. Thurston, of Syracuse, Ill., is in town.

Another of Mr. Dole's children—Frank, is sick with the diphtheria; we learn he is better this morning.

Dr. Manley reports a good many cases of diphtheria, but thus far none are fatal.

Artemus Smith has purchased E. W. Bruce's farm. Price \$4300 per acre.

A Bachelor's Reveries.

Fancy free are a bachelor's reveries, chiefly, mentally passes his life. Nothing knows he of conjugal duties, troublesome children and clamorous wife. But when bones are aching through rheumatism "not toil." Who but wife can rub well in Electric Oil.

Sold by A. J. Roberts and Croft & Sheerer.

OBITUARY.

Mrs. Lois M. Hicks, of Harmony, after a severe and painful illness of three weeks' duration, at times suffering greatly, which suffering was borne with patience, and Christian fortitude, was finally granted sweet relief, and passed to the rest of heaven, on Saturday, March 26, 1881, aged 49 years.

Lois M. Hicks, second daughter of the late Mr. and Mrs. Edward Akin, was born in Cayuga county, New York. About 35 years ago, Mr. and Mrs. Akin, removed with their family from New York to Wisconsin, making their pleasant and attractive home in the town of Harmony, where several members of the family have their permanent residence. About 25 years ago, Lois was united in marriage with Mr. John M. Hicks, since which time she had most faithfully performed the arduous duties of wife and mother, not sparing herself that she might do the work of her life mission, truly and well. She finished her earthly course with credit to herself, and passed away leaving a large family in the confidence of family and friends. The bereaved husband and two amiable daughters, Mrs. H. A. Palmer and Mrs. E. G. Hopple, while they mourn over her departure, sorrow not without hope. They rejoice in the assurance of a world to come. The funeral services were held at the home on Monday, March 28th, in the presence of a large number of friends and neighbors, and were conducted by Rev. G. W. Lawrence.

THE WORLD TO COME.
Is there a good world that we have not seen—A rare gem of beauty and joy serene? Where our friends who have faded from our vision here, Live on evermore in the heavenly sphere?

Hope, whispering "yes" to the longing soul, Points with radiant finger toward the goal; The heaven rest and peace and love, In the mansions of light and life above.

The promise we cherish "is not a dream. It is more than a faint, passing gleam. That is caught from a vision of the night, And that vanishes ere the morning light!"

Though fiction be, we will deem it true, As a prospect it brings to view. If 'tis but a dream, we will not be grieved, But dream on, nor know we have been deceived!

Deceived! deceived! Oh, no! that cannot be, God's given promise is a verity! We cannot fail—we will not break the thought, But rest in Hope with Love so richly fraught.

Premature Loss of the Hair

nowadays may be entirely prevented by the use of BURNETT'S COCAINE. It has been used in thousands of cases where the hair was coming out in handfuls, and has never failed to arrest its decay; it promotes a healthy and vigorous growth, and it is at the same time unobtrusive and soft and glossy dressing for the hair.

BURNETT'S FLAVORING EXTRACTS are the best, strongest and most healthful. Sold everywhere.

CENTER.

The Edgerton tobacco packers are busily engaged in packing the immense purchase made by Childs & Co.

Mrs. Esther Parney is fast completing her new and elegant dwelling house on Washington street. Mr. John Fisher is engineering the job, and is doing it in a manner highly complimentary to himself and workmen.

The next meeting of the Young People's Literary Society will be held at the residence of Mrs. Ira Parney. Let all, who can attend, as business of importance is to be transacted.

Mr. Arthur Ross, of Richland Center, was in town over Sunday, the guest of M. C. Parney.

Miss Lulu Breilstein, of Fond du Lac, is in town, visiting friends, at present the guest of Miss Mattie J. Cleland.

We understand that Mr. Ira Parney is making extensive preparations for the erection of a large and elegant dwelling house. This will make a grand improvement, and when completed will make one of the finest residences in Center.

The measles are getting a good hold in our little village, but we are in hopes that its fury will be curbed ere any damage is done.

Mrs. O. Parney returned to Nebraska last week.

Miss Sarah Davis is slowly recovering from her long illness.

JONSTOWN.

It has been the business of every able bodied man in town for the past six weeks to keep the roads so that our stage could go to Janesville for the mail, and many times he has had to return without any, as the railroads were not in condition to transport anything to your city. What we have known of the many sentimental contests and of the inaugural ceremonies has come in heaps, and the great interest usually developed by a steady daily mail has been seriously marred by the blockade. It is true that many are using the ornamental surroundings for fuel, and some have even gone into the orchards for the old pipes and greenings in order to while out a few more solitary days by a cheerful fire so dearly bought, until the snow is sufficiently settled that the teams can get into the woods for a more bountiful supply.

Weather and roads permitting, Rev. D. B. Jackson will preach at the Congregational church, Jonestown, next Sabbath, at 11 a. m., instead of 2:30 p. m., as heretofore.

The usual supply of coal this year did not reach but a little more than half way through, and the people have to piece out as best they can. The dealers in fuel seem to be as short as the consumers.

The robins and the meadow larks are here and they say they have come to stay, and we shall yet expect a seed time that will insure a bountiful harvest.

With the exception of measles, the people in general have good health, and there has not been a burial here this winter. Our worthy chairman supervisor has had his first sickness by measles and as it was the first, he did not know how to spend the time, and thought business required his attention and exposed himself beyond his endurance to the rigors of our stormy weather, and is now taking the consequences in a warm room and will undoubtedly repent of his industrious habits when he has leisure.

The schools are thinly attended.

The churches are rarely warmed for service on the Sabbath and yet we call ourselves members of civilized society and shall know how to appreciate our freedom when it comes.

We want a genius to invent something new for entertainment, as most of the social programmes are getting stale. Such a person the people of Jonestown would welcome with heart and hand.

Dr. F. S. Butterfield, a dentist of your city, came a week ago with his kit of tools and has opened up a large business in his profession.

The tobacco buyers have made their appearance and many lots have changed hands at prices ranging from four to twelve cents per pound. Many of the best lots yet unsold.

Economy is the Order of the Day.

THE MOST ECONOMIC, as well as best outward and inward remedy in use is Dr. The nas' Electric Oil, because it requires such a moderate quantity to achieve decisive effects in cases of lung and throat disease, rheumatism, kidney troubles, piles, lumbago, etc.

Sold by A. J. Roberts and Croft & Sheerer.

EMERALD GROVE.

Our main street continues to be flooded with water from the ravine to the depth of 12 to 18 inches. Foot passengers manage to get along by wading on the snow drifts on the North side of the road.

Mrs. Dustin has moved into her own house, and Dr. Filkins has moved into that occupied by her.

We have had a daily mail here for the last week to make up for lost time. Mr. Omsby our mail carrier has not made a through trip to Janesville for the last two weeks. He got through as far as Emerald Grove part of the time, and that is all he could stand.

EDGERTON.

Rev. G. W. Wells gave a temperance lecture in the Baptist church, Friday evening. This was one of the most brilliant and logical efforts ever made in this direction in this village. Mr. Wells is one of our old pastors, and because of his excellent labors among us, he is always a welcome and cherished friend to Edgerton. When any person can give us such facts on temperance as we were favored with by this speaker, he can always find a ripe field of labor in our village, but we have no use for the galloping raving exhibitions of blood and war that includes Edgerton in their circuit.

The ladies have been favored the past week with a series of lectures given by a lady of some note and who is well deserving of liberal patronage.

Edgerton seems to be adopting the practice of New York city in instituting a grand charity fair for the benefit of the needy. One of these entertainments was held last Thursday evening, in Union hall, a portion of the proceeds being donated to one of our destitute citizens. This we believe to be a commendable effort. Some of our people who have who have hitherto expressed conscientious scruples against dancing being in attendance at this benevolent party.

The ladies will furnish a free dinner to those who vote the temperance ticket at the spring election.

MISCELLANEOUS.

ROYAL BAKING POWDER
ABSOLUTELY PURE.

Made from Grape Cream Tartar. No other preparation makes such light, fluffy breads, or luxurious pastries. Can be eaten by Dyspeptics without fear of the ill results from heavy indigestible food. Sold only in cans, by all grocers.

ROYAL BAKING POWDER, New York.

To Justices of the Peace
BLANKS for Justice's Return to County Board in new and convenient form.

W. M. ELLIOTT, PRINTER.

A NEW FIRM

But an Old House.

The old firm of

A. & F. SONNEBORN

is dissolved, but the business will be carried on at the old stand, corner of Main and Milwaukee-st., by Fred Sonneborn, who kindly thanks his friends for their past favors and hopes for a continuance of the same in the future, promising the public that honorable dealing and low prices still continue to be his aim. In order to make room for a large spring stock, I will sell Suits, Hats, Caps, and Gents' Furnishing goods at greatly reduced prices.

CUSTOM WORK A SPECIALTY!

COME AND SEE ME.

Truly Yours,

FRED SONNEBORN.

Monroe and Way, 8:00 P. M.	
Madison and Way, 8:00 P. M.	
Madison and Way, 8:00 P. M.	

OVER-LAND MAILS CLOSE.	
Center and Leyden, Tuesdays, Thursdays and Saturdays, 2:00 P. M.	
Emerald Grove, Tuesdays, Thursdays and Saturdays, 2:00 P. M.	
East Troy, via Johnson, 2:00 P. M.	
Wednesdays and Fridays, 2:00 P. M.	
Beloit stage, 4:00 P. M.	

Daily from 8:00 A. M. to 8:00 P. M. On Sundays from 12:00 to 1:00 P. M. Money order and Registered Letter Department open from 8:00 A. M. to 12:00 P. M. and from 1:00 to 5:00 P. M., except during the distribution of the mails. Stamps, stamped envelopes, postal cards and wrappers for sale at East front window from 8 A. M. to 5 P. M. Orders for stamped envelopes with return card printed thereon, should be left at the Money order Department.

On Saturday night ONLY, a through coach from Chicago is received on the Fond du Lac train; and on Monday morning, a through coach is made up and forwarded to Chicago on the 7 o'clock train.

By reading this table carefully, the public can post themselves thoroughly upon the arrival and departure of all the mails, and thus avoid much inconvenience to themselves.

H. A. PATTERSON, P. M.

CHICAGO SUNDAY SCHOOLS.

From Our Regular Correspondent.

Chicago, March 25.—The Cook County Sunday School Convention held its annual meeting in Farwell Hall, February 25th and 26th.

"The aims and objects of the organization are to increase the efficiency and usefulness of all Sunday school instructors of evangelical faith, without regard to denomination, and to unite in christian sympathy, counsel and labor, persons of different denominations in Sabbath school work. To stimulate the organization of new schools, to increase the membership of schools already established."

The spiritual needs of Chicago show an alarming state of affairs. In the city, between the ages of 6 and 21, there are 136,000—while the total number of all ages which attend Sunday school is about 80,000. Less than 55,000 of this number are in Protestant schools—with an average attendance of 45,000. This shows that over 80,000 are habitually out of Sunday school, and without any religious instruction whatever. According to the report of the executive committee from which the above statistics are taken the record of crime shows that during the past year, 6,755 persons were committed to the Bridewell, and of this number under age there were 1,454, and 2,114 were 25 years of age. This is a sad commentary upon the efficiency of Sunday school work, under the present system.

Mr. W. B. Jacobs, the superintendent of Sunday school work in the county, proposed that a city should be divided in districts, and a monthly visitation be made to every family—inviting them to attend some evangelical church and Sunday school. The visitors to be employed by the association, and to visit only those families as cannot be reached through the churches.

He likewise earnestly advocated a spirit of union and harmony among all Sabbath school workers engaged either by churches or the association, and the holding of monthly district meetings in various parts of the city, to hear reports from visitors.

It was shown that throughout the county a great progress had been made during the past year, both in attendance and in new Sunday school organizations.

The statistical secretary gave the number of Sabbath schools in the city and county as follows: City, 247; outside of city, 167; making a total of 414, of which 359 are evangelical.

The salary of the superintendent was paid from private sources, a number of gentlemen had contributed liberally, and encouragement met with on every hand. After paying all outstanding bills there was a small balance left in the treasury.

Very important results are looked for hereafter, owing to the holding of this Convention, which most judiciously placed before the public some startling facts regarding the moral destitution of our city, and the alarming increase of crime amongst young people in our midst. The fears of christian people are thoroughly aroused, and Sabbath school work may be better appreciated in future, as an agency for the prevention of crime where ever established in our beloved land.

L. MONTAG.

Advice Gratis.

Some persons think that medicine must necessarily be unpleasant and cause violent action in order to be of service, they are mistaken, what is needed in any case of derangement of the stomach, Liver or Kidneys is a medicine that will act effectively and at the same time without nauseating or causing pain Spring Blossom is the most gentle, and at the same time the most effective of any remedy sold by druggists. Prices; \$1, 50c., and trial bottles 10c.

Sold by A. J. Roberts, and Croft & Sherer.

COOKVILLE.

Two or three robins came around this way last week, but they evidently made a mistake in their reckoning for they left on short notice.

A harness maker moved into town last week and has set up shop in the old hotel building. We hope he will be well patronized. Now come on ye shoemaker.

The Good Templars convention which was to have been held in Fulton March 2, was postponed on account of snow blockade to May 3d and 4th, at the same place. It is hoped that there will be a good attendance as business of importance is to be transacted.

The Sturgeon buyers who bought on contract last fall are now finding fault on account of frost and shed burn, and some dissatisfaction as to this mode of selling will prevail among the farmers. So keep away with your contracts in the future say they.

The town of Fulton seems to follow up the whisky seller as the times already imposed and paid into the county treasury amount to nearly \$500, and it is their intention to follow this thing up, so they say, until people understand that laws are made for the lawless.

PERSONAL AND LITERARY.

The number of books published in England in 1880 was one less than in 1879—namely, 4,293.

MORE copies are said to have been sold of the last Scribner in England than of all the principal English magazines put together.

PROF. BOYSSON has been engaged by the Lowell Institute of Boston to deliver a course of lectures on the "Saga Literature of the North."

The German language has been almost phonetic, but is to be made completely so by an order of the Government relating to new text-books.

SOTHERN, the actor, leaves a son who has adopted his father's profession, and who gives promise of rivaling his father's fame, and a young daughter who recently made a successful debut on the London stage.

MR. WILSON FLAGG, the New England naturalist, complains that "people of culture" in New England, while constantly reading, are ignorant of everything concerning nature, that depends on observation.

PROF. SWING, of Chicago, has been lecturing on novel reading, and in answer to the question "Who should read the novel?" says: "No one very much; every one somewhat; those most who most dislike them."

GEORGE ELIOT did not care a great deal for jokes, but she always relished one that referred to one of her own volumes. It is the well-known story about an ignorant English bookseller who put up the notice: "Mill on the Floss: Ditto on Political Economy."

THE richest man in the United States Senate is said to be Mr. Fair, of Nevada. Of the others, Mr. Hale, of California, Mahone, of Virginia, and Sawyer, of Wisconsin, are more than millionaires. There are many other rich men in that body.

TENNYSON is, in his mood of composition, the reverse of rapid and inspired. He wrecks himself on expression, spending hours sometimes on a single line. As an example, he is reported to have written "Come into the Garden, Maud," in his poem of "Maud," entirely over fifty times, and to have occupied three whole days on six of the lines.

CHARLES DICKENS had a sharp eye for literary peculiarities. On January 18, 1858, when George Eliot's sex was still a secret, he wrote to Mr. Langford: "Will you—by such roundabout ways and methods as may present themselves—convey the note of thanks (enclosed) to the author of 'Scenes of Clerical Life,' whose first two stories I can never say enough of. I think them too truly admirable. But, if those two volumes, or a part of them, were not written by a woman—then should I begin to believe that I am a woman myself."

HUMOROUS.

"One difficulty about a chip off'n the old block," said Deacon Searchly, "is that it's off'n of the old blockhead."

A CONTRADICTION REPLY—"No, sah; I won't be in for half an hour. Jess sit yourself down in de parlor and wait a minit till he gets back."

PUPIL—"What is a hero, Mr. Birch-um?" Teacher (Mr. Birchum)—"A hero is a man who conquers himself." Pupil—"Ah, I see; a man who can sit down on a tack and only feel sad about it."—*Andrews' Bazar.*

A NEW YORK lady recently accidentally dropped \$4,000 worth of diamonds in the East River. Being the wife of an editor, she merely smiled, then went down to Tiff's and ordered several million dollars' worth more.—*Brooklyn Table.*

Two Galveston men were making arrangements to go into business. One of them says: "It is understood, now, I get two-thirds of the profits, having put in the most capital, and you get one-third." "All right," responded the other; "but if we have big luck and fail, then we are to divide the profits even."—*Galveston News.*

The eight-year-old daughter of a family who has the decorative craze the worst way was discovered the other day with the big album, daubing the faces of the photographs of her parents, brothers and sisters, with water colors. When the little innocent was scolded, she replied that she was "only decorating the family mugs."

It was in the smoking-room of an Atlantic steamer that a worthy Teuton was recently talking about weather forecasts. "Look here," said he, "I dake you vat it is. You petter don't dake no shlock in dem weather predictions. Dose people don't know nothing. Dey can't dell no petter as I can."

But, my dear sir," said a person present, "they foretell the storm which we have just encountered." "Vell, dat ish so," said the Teuton, contemplatively; "but I dell you vat it is. Dat storm would have come just de same if it had not been predicted."

Poisonous Paper.

THE season is near at hand when many families will repaper some portion of their dwellings. So far as we know, very little wall paper, if any, is manufactured in this country with the use of arsenic, but that has not been the case in England. Recently a lawsuit concerning the use of arsenic in colors was instituted in London, when it was shown that fifty per centum of arsenic was found in the colors. Dr. Senton, Health Officer at Nottingham, Eng., in his annual report for 1879, says: "At the beginning of the year I reported certain cases of illness due to this cause. Since then other cases have come under my notice, and I will briefly detail the facts concerning one group, which serves as an illustration of others. Mr. and Mrs. B. and family, consisting of two little girls, aged respectively five and three years, and a baby nine months old, together with two maid-servants, went to reside in a newly-built, freshly-painted house. The rooms were papered throughout with papers of two different patterns, both of which were colored with pigment containing Scheele's green in the proportion of .596 and 2.52 grains per square foot, respectively, as was subsequently shown by the analysis of Dr. Truman. Soon after they commenced residence every member of the household, with one exception, suffered severely from symptoms which are well known to be due to arsenical poisoning. One of the maids was so ill that her mistress sent her home. She then recovered in a few days, but on her return suffered again in a similar manner. The only member of the family who did not suffer in an evident manner was Mr. B., and this could be accounted for by the fact that he was a good deal from home at the time. As soon as suspicions were confirmed by an examination of the papers, the walls were stripped, and in a few days the patients were well."—*Exchange.*

How to Secure Health

It seems strange that any one who will suffer from the many derangements brought on by an impure condition of the blood, when SCOVILL'S SARSAPARILLA AND STILLINGIA, or BLOOD AND LIVER SYRUP, will restore perfect health to the physical organization. It is indeed a strengthening syrup, pleasant to take, and has proven itself to be the BEST BLOOD PURIFIER ever discovered, effectually curing Scrofula, Syphilis, Erysipelas, Malaria; all Nervous disorders and Debility, Bilious complaints and all Diseases indicating an Impure Condition of the Blood, Liver, Kidneys, Stomach, Skin, etc. It corrects Indigestion, Astringent, and restores the system to a healthy condition, and it ACTS LIKE A CHARM, especially when the complaint is of an exhaustive nature, having a tendency to lessen the natural vigor of the brain and nervous system.

BAKER'S PAIN PANACEA cures Pain in Man and Beast. For use externally and internally.

DR. ROGER'S VEGETABLE WORM SYRUP instantly destroys worms and removes the Secretions which cause them.

MISCELLANEOUS.

JANESVILLE BUSINESS DIRECTORY

GENERAL BLACKSMITHING.

H. W. HATHORN.

RIVER ST.

General Blacksmithing, Horse Shoeing, Specialties, Repairing of all kinds on short notice and guaranteed. Prices as low as the lowest. Shop on River street, in rear of First National Bank.

CARRIAGE PAINTING

J. B. LAGRANGE.

Would respectfully call attention to his extensive painting business on Bluff street, in the rear of Hodge & Buchholz' shop, where he is prepared to do first class Carriage and Artistic painting of a superior workmanship. Give him a call.

HARNESS, BLANKETS, Etc.

JAMES A. FATHERS.

Cor. Court and Main Sts., - - - Janesville, Wis.

Manufacturer and Dealer in Light and Heavy Harness, Saddles, Collars, Braces, Whips, Breeches, Combs, etc. Also a good assortment of Trunks, Valises and Ladies' Satchels. The best kind of Harness Old ways on hand. Give me a call. A good square deal guaranteed. Try my Carriage Top. It makes old tops as bright as when new.

W. M. SADDLER.

EAST MILWAUKEE ST., - - - JANESVILLE.

A Large Stock of First-Class Harness and Trunks on Hand at Bottom Prices.

GAS AND STEAM FITTING.

GEO. T. PRICHARD & CO.

NO. 4 NORTH MAIN ST., - - - JANESVILLE.

(Next door to Gazette Office.)

Gas, Steam and Water Pipe Fitting. Dealers in Pumps and Cylinders, Gas, Flatiron, Pipe, Rubber Hose, and all kinds of Fittings for Gas, Steam and Water Works. All work in the above line done on reasonable terms.

PHYSICIANS AND SURGEONS

Q. O. SUTHERLAND, M. D.

Homeopathic Physician and Surgeon.

Office and Residence No. 3 Franklin Street, (Opposite Court Exchange).

HOURS: 7 to 9 A. M.; 12 to 2 P. M. and 5 to 7 P. M.

MYERS HOUSE LIVERY.

C. W. JACKMAN, Proprietor.
